

WHY TULSI?

"I am running for president to serve the interests of the people – not the interests of the rich and powerful, Big Pharma, war profiteers, and foreign governments.

A Soldier's Heart

BEACON OF HOPE

"I believe the White House and our nation's capital should be a beacon of hope, compassion, and inspiration for all Americans and not the source of the self-centeredness, darkness, hatred, and divisiveness that is now pervading our country."

TULSI WILL:

- Ensure all Americans get the healthcare they need through Medicare for All.
- Protect our environment; our air, land, water, and oceans.
- Stand up to bigotry, hatred, and violence against others because of their race, religion, or sexual orientation.
- End our longstanding foreign policy of carrying out regime change wars, work to end the new Cold War and nuclear arms race.
- Increase taxes on the richest Americans, big corporations, and Wall Street so that no one's life is ruined by a health emergency or student loan debt.
- Set aside partisan politics to implement the best immigration solutions for the American people.
