**Susan Santoro Martz, CYI** (*Certified Yoga Instructor*)

I'm a Broadway singer & dancer turned MOM...

My career took a sharp turn when I chose to start a family. Suddenly the world became a magnifying glass. I realized the type of environment I was bringing my son into and it was unsettling to me. My inquisitive nature led me down many paths of health & healing and many years of personal research, but only one has had a major impact on my family's health. *Pure, Therapeutic Grade, Young Living Essential Oils*. I feel it is my responsibility to my son and future generations to share these life giving remedies with those of us who are birthing our future world.
